Kitsap Peninsula

Dental Hygienists' Association

Join Us!

## Kitsap Peninsula Dental Hygiene Society

We are a community of local dental hygienists dedicated to support each other in this valuable profession. At the local level, we promote Washington State Hygienists' Association's mission, vision and core values:

*"The mission of WDHA is to increase awareness of and access to quality oral health care, to promote the highest standards of research and education, licensure and practice for dental hygienists, and to represent and promote the interests of the dental hygiene profession, as a means to improve the public's health."*

*Create a community of autonomous professionals who serve as leaders in oral health through collaborative healthcare integration.*

*Promote and advance the dental hygiene profession to improve the public's oral and overall health.*

Through social events our group provides possibilities for colleagues to exchange ideas, learn, and support each other and our communities.

**We invite you to come and see what all the fun is about!**
