

Eastern Washington Dental Hygiene Component is one of the largest in landmass of the state. It spans from the Canadian Border in the north to Oregon border in the south.

We generally hold meetings every other month starting in September to May. May is our annual senior dinner, where we congratulate the recent EWU Dental Hygiene class. The meetings start at 6:00 and end around 8:30 pm. We meet in different venues around the Spokane area and work at delivering a variety of topics for continuing education.

The leadership of the component does work on the upcoming year's budget, meeting dates, venues and speakers in early summer.

Our meetings are open and friendly! We love to network, meet new members to the area, it is our mission to make everyone feel at home and we offer assistance if there are any questions about employment opportunities.

We reach out to hygienists by email/flyers and our Facebook Group.
